NOVA
DISTRIBUTORI AUTOMATICI

LEDA DRINK

GREEN WATER AT KM 0

✓ INNOVATIVE

- The new OZONE sanitization systems and UVC lamp make mains water more pleasant

✓ ECO-SUSTAINABLE

- Water Km 0 means: less air pollution, less CO2 emissions, and less plastic production. The bag in box is a packaging that guarantees a high degree of hygiene and respect for the environment in the disposal. Lighting a Led.

✓ QUALITY'

- SINGLE automatic vending machine with sanitizing process of the product pick-up area and the whole interior.
- SINGLE with bottle / container sanitization process (PATENTED)
- Always fresh water, not permanent for a long time in the plastic, great to drink .

✓ MASTER/SLAVE MODEL

- Master version distributor.
- Master slave wiring for payment system applied to another vending machine.
- Slave wiring for payment system applied to NOVA distributor .
